

The top 10 reasons to choose YouScience solutions for college and career guidance

- **1 The only personalized aptitude-based solution**
 - The only aptitude-based solution for middle, high school, and beyond.
 - Each student gets personalized aptitude analysis and career guidance.
- **2 200+ industry-recognized certifications**
 - Validates students' skills and knowledge with the nation's largest library of certifications in all National Career Clusters and 21st Century Skills.
 - Supports pre- and posttesting and fully remote proctoring.
- **3 600+ career matches**
 - Matches each student's aptitudes and interests with more than 600 in-demand careers from O*NET OnLine.
 - Offers a detailed look at each career, including aptitude and interest fit.
- **4 Single solution**
 - Gives students and educators all the tools needed for success.
 - Includes aptitude discovery and access to aptitude- and skills-based certifications, academic reporting, careers, colleges, and employers.
- **5 Exposure gap reduction**
 - Proves to students they're wired to excel in careers they never thought possible or didn't know about — regardless of gender, race, or economic status.
- **6 Student engagement**
 - Shows students why and how what they're learning matters to keep them engaged and in school.
- **7 Easier career decision-making**
 - Empowers students and educators to work together to make the best college and career choices.
- **8 Built-in reporting**
 - Lets educators quickly guide students, drive equality, track growth, maximize funding, and support improvements.
- **9 Employer connections**
 - Shows students real, local employers looking for their aptitudes and certifications for internships, work-based opportunities, and future jobs.
 - Connects educators with employers for career fairs, classroom visits, internships, and more.
- **10 The choice for thousands of schools**
 - Chosen by 7,000+ middle schools, high schools, and postsecondary institutions nationwide.
 - More than 7 million aptitude assessments and 5.5 million certificates taken so far.
