

Enhancing a better path

YouScience® Brightpath is a comprehensive, AI-driven academic and career advising platform designed to help students find their why, their path, and their purpose.

We create solutions that stick

Aptitude & Career Discovery

A powerful tool that allows users to discover their aptitudes and connect those talents to careers.

Industry Certifications

Provides students with proof of their skills and abilities to present to potential employers or post-secondary institutions.

Work-Based Experiences

Supports teachers by removing the burden of managing tasks associated with work-based learning, such as logging student work hours and preparing district-wide reports.

Professional Services

Helps create solutions and systems that support students' career and life readiness. Consultative services can be added to a YouScience Brightpath subscription or services can be purchased separately. Proposals for custom solutions available upon request.

Education and careers are interdependent

YouScience® is the only provider of Brightpath a fully integrated platform that delivers highly accurate aptitude-based assessments, personalized career guidance, and industry-recognized certifications.

YouScience Professional Services offers customized implementations of Brightpath for your school or program. By combining cutting-edge educational products with our Professional Services for career-connected learning, YouScience supports communities, districts, schools, and educators in preparing students for college and careers in new and exciting ways.

The YouScience Professional Services team boasts tremendous resources and tenured professionals who are passionate about education. With the recent acquisition of the National Center for College and Career Transitions (NC3T), YouScience now features:

Unparalleled consulting services

World-class professional development

Engaging and relevant workshops

Insightful keynote addresses

Personalized implementation plans

Let YouScience show you how to better align talent, education, and industry.

YouScience® Professional Services

YouScience partners with educators to build strategic, customizable solutions that allow students to make meaningful connections between what they're learning in the classroom and their next steps in life.

Career Development Education

Connects student knowledge to individual opportunities to increase student engagement.

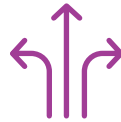

Employer Engagement

Expands support and industry engagement in education, promotes partnerships, creates ownership across a community, and facilitates industry expertise and guidance within the educational sector.

Career Connected and Work-based Learning

Fosters opportunities for students and industry to purposefully connect, promotes real engagement and experiences, increases students' ability to apply practical skills, and increases talent pipelines with skilled employees.

CTE, Career Pathways, and Career Academies

Provides student-centered solutions, improves school culture, and provides a network for student support.

Collaborative Initiatives

Our Profile of a Graduate solution assembles a holistic education, improves community and industry connections, and encourages community ownership. Our collaborative solutions incorporate input and expertise from a variety of sources.
