

# Make education even more impactful with YouScience® Brightpath.

Partner with your students in designing customized learning and career plans tailored to their aptitudes and interests with Brightpath. This end-to-end, online education platform gives you powerful tools including:

Science-backed aptitude discovery assessments

Personalized educational pathways and college planning

Industry-recognized certification exams

Career-connected learning with local business partners

Impactful analytics and insights for proven ROI

Brightpath offers something for everyone.

## Inspire students

Empower students to discover their unique aptitudes, match them to best-fit careers and help them get ahead with industry certifications all in one platform.

## Empower teachers

Enable teachers to connect with students about their unique talents, for more personalized learning experiences.

## Enable counselors

Give counselors powerful insights to have meaningful conversations with students about their future and best pathways to get there.

## Amplify CTE directors

Engage students with career-connected learning centered on their unique aptitudes and interests while increasing graduation rates and industry certifications.

## Inform administrators

Capture data and insights, manage resources and connect students, schools and communities for ongoing success.

## Connect communities

Show measurable impact by reporting program effectiveness and employer engagement through career connections to government and business leaders.
