Commercial Photography 2	31
Capstone certification description	
The Commercial Photography capstone assesses candidates' abilities in photography fundamentals and advanced creative practice. Commercial Photography 1 introduces essential concepts such as camera selection, image capture, and editing. Commercial Photography 2 builds on these skills with advanced techniques, professional assignments, and portfolio development—demonstrating the application of digital photography in commercial contexts. Together, the certifications confirm readiness for industry roles requiring both technical precision and artistic vision.
