Digital Media, Advanced	29

Capstone certification description
The Digital Media capstone assesses candidates' ability to apply design principles and multimedia tools in creative, real-world contexts. Digital Media 1 introduces foundational concepts including design basics, typography, color theory, and related software. Digital Media 2 advances into interactive media development, spanning text, graphics, animation, and video production. The Digital Media, Advanced exam validates mastery in planning, designing, and producing complex interactive media projects—demonstrating readiness for professional opportunities in multimedia and digital design. Together, these certifications ensure comprehensive preparation for careers in the fast-growing digital media industry.
