| Capstone certification description |
| --- |
| The Interior Design capstone assesses candidates' progression from foundational design principles to advanced interior design applications. Interior Design 1 introduces elements and principles of design, furniture arrangement, space planning, and careers in design. Interior Design 2 builds on these concepts with a focus on architecture, furniture styles, lighting, and functional use of spaces. Interior Design 3 advances to professional-level design skills, including project work in residential, commercial, and school environments, with emphasis on sustainability, universal design, design technology, and career development. candidate leadership and competitive events may also be incorporated into evaluation. Together, these certifications confirm readiness for diverse careers in the interior design industry. |
