Capstone certification description

The Medical Assistant capstone brings together multiple certifications to confirm well-rounded expertise. Candidates who achieve this capstone have demonstrated competency in essential clinical, laboratory, and administrative duties. The Anatomy & Physiology exam covers key functions across clinical, administrative, and lab tasks. The Clinical & Laboratory Procedures exam measures proficiency in assisting with treatments and monitoring patients. The Medical Office Management exam emphasizes managing health records and administrative operations. The Medical Terminology exam assesses the language skills necessary to carry out clinical, administrative, and laboratory responsibilities. Together, these modules ensure candidates are fully prepared to support physicians, deliver patient care, and manage critical office functions.
