Capstone certification description
The Sewing Construction and Textiles capstone assesses candidates' progression from foundational design skills to advanced apparel and textile applications. Sewing Construction & Textiles 1 introduces basic apparel design and construction while preparing candidates for the global apparel industry and exploring entrepreneurial opportunities. Sewing Construction & Textiles 2 builds on these skills, emphasizing intermediate design and construction techniques, along with project management and industry readiness. Sewing Construction & Textiles 3 advances to professional-level skills in apparel and interior design, including pattern design, fitting, and alterations, while preparing candidates for both career opportunities and entrepreneurship in the fashion and design industries. Together, these certifications validate readiness for a variety of pathways in apparel, textiles, and design.
