Capstone certification description
The Television Broadcasting capstone assesses candidates' knowledge of core production and broadcasting skills. Television Broadcasting 1 introduces basic competencies in camera operation, audio systems, lighting, pre-production planning, studio and control room operations, visual effects, graphics, and copyright law. Television Broadcasting 2 builds on these fundamentals with advanced hands-on assignments and practical applications across the same areas, requiring candidates to demonstrate mastery in real-world broadcasting tasks. Together, the certifications confirm readiness for entry-level positions in television production and related media industries.
